Subject: In the matter of Docket No. W-02327A-09-0284 Antelope Run Water Company

Ladies and Gentlemen,

We write to support the concept proposed by Ms. Bonnie O'Conner, Southwest Utilities Management in her 12 August reply to your staff's report regarding an emergency rate surcharge for Antelope Run Water Company. A base rate surcharge plus a commodity surcharge based on use is very appropriate in this physical and fiscal climate.

If this will secure the company and its water delivery and encourage conservation then it becomes the best of all possibilities. It will then be up to your staff and you to determine the correct amounts in each category.

Thank you for your attention and interest.
